About G1 Therapeutics, Inc.

G1 Therapeutics, Inc. is a privately held clinical-stage pharmaceutical company based in Research Triangle Park, NC that focuses on the discovery and development of novel small-molecule therapies to address significant unmet needs in oncology. The company is leveraging its proprietary kinase drug discovery platform to advance a pipeline of first-in-class compounds and best-in-class drug candidates that address two markets: CDK4/6 antineoplastics and protection of the bone marrow from damage by chemotherapy (chemoprotection). The company's lead program, G1T28, is a highly potent and selective CDK4/6 inhibitor that is currently being evaluated in Phase 1a clinical trials.
